BADGE NATION

Who is it best for?

This package is best suited to small or medium enterprises (SMEs) with under 250 members of staff.

The focus of these packages is support in writing high quality badges that make a significant difference to the performance of your team and support the development of your work culture. These packages work best for single organisations who employ less than 250 people. If you are a larger employer than that we suggest you explore our working at scale packages.

BADGE NATION

Badging In Your Community

BADGE
NATION

Who is it best for?

If you want to issue badges to high numbers of earners, these packages are for you. Whether you are a college, university or a large membership organisation, they are designed to keep your ongoing technology costs low so that you can invest in the staff time required to get badging in your organisation really motoring.

Benefits of our Badging At Scale Packages

- Ensure all your learners and staff can be recognised for what they achieve and give them all access to a smart digital record of what they have done

- Promote your organisation - Make being a learner, member or staff member at your institution more attractive

- Make it easy for staff to adopt badges by easily integrating with your existing systems

- Keep your technology costs low

BADGE NATION

Bespoke Packages

Not sure your ambitions fit within one of our packages?

Here at Badge Nation we understand that sometimes, not everything fits within a box or specific shape.

If you have plans and ambitions for utilising digital badges which don't fit within one of our standard packages, we would love to work with you to design a bespoke package which fits your organisations badging needs!

- Bridge the gap between learning and jobs. You can use LMI data from Lightcast to connect your badges and badge pathways to live jobs.

Credly

- Easy to use customer- interface, allowing quick issuing, bulk issuing and analytics downloads

- Publish and view your digital badges in multiple different languages

- See your badges on a platform alongside some of the biggest corporations globally, who are also using digital badges

BADGE NATION

Specialist Services

Badges are simple but using them to make the difference that you want to make sometimes isn't. From years of experience, we have worked out that getting an organisation excited, giving them access to a digital badge issuing platform and showing them how to write badges isn't enough to get them badging. Things still get in the way.

Support, Quality Assurance and Badge Checking

All our Digital Badges are quality assured to The RSA Badge Standard as part of our service. We also understand that quality assurance is something our customers care about internally. Whatever standards you align to, we will always be on hand to offer you guidance, support and information around writing, issuing and celebrating your Digital Badges!

For all Badge Nation customers
Cost: **Free**

/20 badge templates
Cost: **£250**

BADGE NATION

Badge Chat
